

Meritor Part

Meritor Parts - The Meritor Company is a leading global supplier founded upon one hundred years of tradition of quality and service. Meritor concentrates on integrated systems with different modules and parts to the original equipment manufacturers and aftermarket equipment within the transportation and industrial trades.

Meritor values the wishes of their clients to ensure their success while priding itself in the company's unique energy and believes this output of energy to be their competitive advantage in their worldwide operations. Meritor starts with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred individuals, Meritor promotes collaboration and innovation amongst a team of experienced professionals.

By only employing future focused employees, Meritor strongly feels these top-caliber individuals will be able to rapidly get used to to changing environments and exhibit the commitment and performance needed so as to reach results in the competitive materials handling business. The company empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all of their workers different chances for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of axles, drivelines, braking and suspension systems for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of their international engineering workers.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated around the world in 19 nations and in 5 different continents.

The supplier development network is specially situated to support new business development. Regional teams are supported by global quality systems, centralized specialties and initiatives in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven method to decision making within every part of the company. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is likewise comprised of transactional Green Belts who use Six Sigma tools to business methods and apply lean techniques.
