

## **Forklift Electrical Parts**

Forklift Electrical Parts - Forklifts could be particularly labeled to be utilized in unsafe sites. A marked forklift indicates the design has met the minimum standards of ANSI/UL 558 meant for engine powered trucks or ANSI/UL 583 intended for electric lift trucks for the type of label put.

The application for labels for lift lift trucks could be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Type Designations, Areas of Use, and Maintenance and Operation. Consult your local insurance carrier and Fire Marshall for additional info concerning the approved uses of industrial powered trucks in your application.

If the specific lift truck meets the outlined standards, labels can be placed. A labeled lift truck would show the type of designation put on the nameplate and will have a correctly corresponding label attached.
