

## Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are at this time 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those operating in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive makes of lift trucks, with parts covering more than 120,000 particular items for all of its automated equipment. Your local Clark Dealer is your complete source for availability of all your components needs supplied by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently located in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Clark Totalift has a really impressive global support network. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their clients predominates the material handling industry.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the worker restraint system. This exceptional commitment to safety is now a standard feature on every forklift.

Clark has a unrelenting objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental restrictions, thus placing them in a dominant industry position.

Clark has preferred the extremely economical and beneficial structure of "Lean Manufacturing" for its assembly plants and application of resources. This structure was developed to acknowledge the most successful approaches of production plant stewardship and ensuring maximum proficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product efficiency while minimizing costs. The contemporary value engineering agenda combines modern product improvement and provides improved client support and service within the industry.
